Job Description

ROLE AND RESPONSIBILITIES:

- Teach High School Business/Computer Science Classes including AP Computer Science
- Develop and update curriculum materials aligned with educational standards and best practices in computer science education
- Plan and prepare lessons that cater to diverse learning styles and abilities, incorporating hands-on activities, projects, and real-world applications
- Design and administer standard aligned assessments to evaluate students' understanding and progress, providing timely feedback to support their learning
- Establish a positive and inclusive learning environment conducive to active participation and collaboration among students
- Provide academic support, mentorship, and guidance to students, including assistance with projects, competitions, and career exploration in computer science fields
- Collaborate with other teachers, administrators, and stakeholders to promote interdisciplinary connections, address academic needs, and foster a supportive school community
- Maintain open communication with parents/guardians regarding students' progress, achievements, and areas for improvement in computer science coursework
- Maintain accurate records of student progress
- Supervision responsibilities as assigned
- Adhere to school policies, procedures, and guidelines, ensuring a safe and respectful learning environment for all students

QUALIFICATIONS AND EDUCATION REQUIREMENTS

- Minimum of a Bachelor's degree in Secondary Business/Computer Science
- Valid PEL with HS endorsement in Secondary Business/Computer Science
- Preferred experience teaching of Secondary Business/Computer Science
- Strong organizational and communication skills.
